

Dear Pontificia Universidad Católica del Peru,  
Congratulations on starting your OSA Foundation Education  
Grant-sponsored program, \"CONSTRUCT YOUR OWN TELESCOPE AT HOME\"  
which takes place May - October, 2008. We hope it was successful, and look  
forward to hearing more about it.

Please remember to complete the attached program report.

Since this is an ongoing program, please update me periodically on your  
progress.

Also, please inform me if you have changed the date of your program.

The report is due 1 month after program completion.

Important - If a completed report is not received your Chapter will not  
be eligible to participate in the OSA Foundation Educational Outreach  
Grant Program for one full year.

Additionally, if you have any pictures, flyers, or posters from your  
program, we would love to see them! You may email them to  
[egraff@osa.org](mailto:egraff@osa.org), or send them via direct mail to Optical Society of  
America, Attn: Emily Graffum, 2010 Massachusetts Ave, Washington, DC  
20036. Your program may even be featured in one of our various  
newsletters or OPN!

Please contact me by phone (202.416.1434) or email ([egraff@osa.org](mailto:egraff@osa.org)) if  
you have any questions.

Congratulations on starting your program!

Emily
